

# Symantec Protection Suites—SMB Family Overview

Protection right-sized for your business

Symantec™ Protection Suites protect business endpoint, messaging, and Web environments against threats from malicious software, data loss, and spam. Integrating market-leading security and backup/recovery technologies, the suites work across hardware platforms and operating systems for quick recovery from an employee error, system failure, or even regional disaster. Easy to purchase, deploy and manage, Symantec Protection Suites reduce the time, effort, and investment required for effective protection.

Symantec Protection Suites are available in editions scaled to meet specific technology, budget, and business requirements, with flexible licensing options that help you stay protected as your business—and its protection requirements—grow and change.

### *Right-sized protection*

Whether you're a business owner trying to protect a few desktops or an IT administrator responsible for the security, backup, and recovery of a growing network, there's a Symantec Protection Suite that matches your requirements today, with compatible upgrades and options to meet even specialized requirements in the future.

#### *Symantec Protection Suite Small Business Edition*

Affordable high-performance security, spam/phishing, and backup/recovery protection for smaller businesses, including security coverage for Windows® and Mac clients plus Microsoft® Exchange, and live backups with rapid “restore-anywhere” recovery for critical desktops and all the data they contain:

- Symantec Endpoint Protection Small Business Edition 12.0
- Symantec AntiVirus™ for Macintosh®
- Symantec Mail Security for Microsoft Exchange w/ Premium AntiSpam
- Symantec Backup Exec™ System Recovery Desktop Edition

#### *Symantec Protection Suite Advanced Business Edition*

Scalable endpoint protection, protection for critical servers, and central management for larger, more technically complex businesses includes reputation-based spam filtering, data loss prevention, and backup/recovery for both servers and desktops:

- Symantec Endpoint Protection (11.0 & Small Business Edition 12.0)
- Symantec Endpoint Protection for non-Windows® clients (Macintosh®, Linux®)
- Symantec Mail Security for Microsoft Exchange, w/ Premium AntiSpam
- Symantec Brightmail™ Gateway, w/ virtual appliance
- Backup Exec System Recovery Desktop Edition
- Backup Exec System Recovery Server Edition

#### *Symantec Protection Suite Enterprise Edition*

Complete gateway-to-endpoint protection for businesses with complex networks and advanced application platforms extends coverage to Windows Mobile and Lotus Domino® platforms, and adds self-enforcing Network Access Control:

- Endpoint Protection (11.X)
  - Non-Windows clients (Macintosh, Linux, Mobile)
  - Symantec Network Access Control Self-Enforcement
  - Mail Security for Exchange and Domino®, w/ Premium AntiSpam
  - Brightmail Gateway, w/ virtual appliance
  - Web Gateway
  - Backup Exec System Recovery Desktop Edition
-
