

E-waste Drop-off Points in India

Dell has setup e-waste drop-off points at the below locations as an expansion of our global free recycling program for consumers available online at www.dell.com/recycling

While showcasing Dell's environmental responsibility the drop-off points also serve as a means of providing convenient take back mechanisms for our consumers.

- Our consumer segment customers can return any brand of non-working electronics for recycling through these drop off points.
- The bins in the drop-off points are not designed to accept bulky items (> 1 ft3). However, such items could be brought upon prior intimation to the drop-off points at a mutually agreed date due to logistic challenges.
- Due to the costs involved in recycling, no value would be paid back to consumer for non-working electronic products dropped off in the collection bins.
- Our drop of locations are open 9:30AM - 6:30PM, Monday - Saturday, excluding any local/public holidays.
- The drop off option provided is only for consumers. Dell has an Asset Resale and Recycling service for our commercial customers with more than 10 units to be disposed.
- In case of issues, please write to Recycling_APJ@Dell.com with the subject line: India Drop-off Points <CITY NAME>
