Make IT management easier and faster* with Dell™ Lifecycle Controller Integration for Microsoft® System Center Virtual Machine Manager

74% less time to execute four key management tasks*

**Simpler system discovery**

- 50% fewer steps

**Faster firmware updating**

- 96% less time

**Quicker server configuration**

- 39% less time

**Swifter Hyper-V deployment**

Dell Lifecycle Controller Integration for MS SCVMM provides templates and automated processes to ensure quick, efficient, and consistent management of Dell PowerEdge™ servers.

*Performing these tasks on a single Dell server versus HP server with OneView for Microsoft System Center. Savings grow more rapidly with more servers.
