

Dell Latitude 7000 Series

The commercial laptop completely redefined — amazing looks, leading reliability and Ultrabook™ mobility

Elite design and reliability

The thin, lightweight Latitude 7000 Series Ultrabooks offer mobility at its finest, with the 12-inch model starting at just 20mm thin and 1.3 kg (2.99 lbs) with a 3-cell battery¹.

These Ultrabooks are built to be strong and look amazing. The non-touch screen models feature durable aluminium design with a soft-touch paint finish. The display back on the touch-screen option² is wrapped in strong, attractive woven carbon fiber for added durability.

The laptops offer a choice of high-definition (1366 x 768) anti-glare LED backlit or full HD (1920 x 1080) touch displays, with the touch displays featuring Corning® Gorilla® Glass NBT™³ for great scratch and damage resistance, optimal brightness and overall reliability.

Intel® Core i™ ultra-low voltage processors and a choice of solid state drives or performance solid state hybrid drives also deliver reliable mobile productivity.

Like all Latitude laptops, Latitude 7000 Series Ultrabooks are subject to MIL-STD 810G testing and endure “highly-accelerated life tests” to ensure their durability. Latitude E-Family laptops are tested to survive an equivalent of 120 hours within a car in direct sunlight during summer, opening and closing every 15 minutes during work hours, and much more.

Consumer-inspired features

Latitude 7000 Series Ultrabooks will excite end-users with consumer-inspired details. The option of a touch screen in a full laptop is noteworthy, offering an outstanding productivity experience with Genuine Windows 8 or Genuine Windows 8 Pro. The optional backlit keyboard makes it easy to type in dark environments.

These commercial Ultrabooks feature Intel® Identity Protection Technology (Intel® IPT) with near-field communications (NFC), allowing you to shop online and pay with just a tap of your NFC-enabled credit card on your device. Feel safer knowing your device has confirmed your identity to the online merchant and that your credit card information is being transmitted more securely and faster.

The Latitude 7000 Series Ultrabooks also feature integrated Intel® Wireless Display (WiDi)⁴. Based on the existing Wi-Fi standard, WiDi allows a portable device or computer to send up to 1080p high-definition video and 5.1 surround sound to a compatible display wirelessly.

Choose essential accessories recommended specifically for your Latitude. Dell Latitude 7000 Series is the only Ultrabook designed to be compatible with an existing laptop family docking station. Dell also offers WiGig wireless docking (Dell Wireless Dock D5000) for easy integration into a desktop or conference room environment. Complete your docking solution with Dell UltraSharp monitors, Dell's wireless

keyboard and mouse. Connect and collaborate effectively with broad connectivity options, an integrated HD webcam and microphone array.

On the go, easily transport your Ultrabook with Dell's Executive Leather Carrying Case, and the Latitude 7000 Series' swappable battery capability, along with the Dell 90-watt Auto/Air Charger with Power Cord, keeps you powered throughout the day.
