

Say hello to future-ready IT.

Build a scalable path to the future. Succeed in your business with future-ready services.

In today's rapidly changing, always-on, digital-everything world, expectations are increasingly high. IT leaders are tasked with leading day-to-day operations and engaging with the business while leading innovation strategy. Customers expect to engage how they choose, when they choose. Employees want access to real-time information anytime, anywhere, on any device. And companies like yours need future-ready technology to ensure growth through a secure, agile environment.

Build a scalable path to the future with Dell Services. As your partner in creating a future-ready environment to empower your workforce, engage customers and help you succeed in your business, we offer a wide variety of outcome-focused solutions, including:

Modernization solutions:

Adapt quickly to dynamic market conditions with modern, innovative technology.

The path to transformation requires a modern, future-ready technology environment. Dell Services can help you build and maintain a flexible technology foundation to keep your business efficient, effective and agile in our always-on world.

Digital solutions:

Enable better business outcomes with digital transformation.

Staying relevant in today's world requires rapid time to market, contextual customer engagement and real-time data insight. Dell Services can help you achieve better business outcomes and outpace your competition with a business-first approach to transformation that applies the right mix of analytics, mobile, social media, cloud and Internet of Things technologies.

Industry solutions:

Unleash your full potential with solutions designed for your unique requirements.

One size does not fit all. Technology has to be relevant to your industry, your business and your customers. With in-depth expertise across industries, proven capabilities and unique intellectual property, Dell Services can help you build the right solution for your business to unleash your full potential.

Your partner for creating a future-ready environment

We work with organizations around the world to create, manage and support IT that is aligned to their unique business needs. Our comprehensive set of services, deep technology expertise and flexible customer engagement models help:

- **Facilitate innovation:** Healthcare logistics company [Owens & Minor](#) transformed their supply chain and connected the world of medical products to the point of care. We deployed a new strategy that enables business evolution through a combination of cloud-based infrastructure, big data and mobility. This not only helped them save \$50 million, which they reinvested into building innovative capabilities, but also allowed them to achieve their goal of becoming a global logistics company.
- **Enable digital transformation:** Mexican media company [Grupo Acir](#) embraced digital technology to stay relevant and meet expectations of online and mobile listeners and advertisers. We assessed their digital readiness and developed a multiphase plan to transform their business.
- **Create a modern IT environment:** Italian fashion group [Miroglio Group](#) gained a flexible and modern infrastructure with our application modernization services. This also helped them cut IT spending by almost 50 percent, while retaining full functionality of their existing applications.
