Because the going gets rough.

Latitude Rugged portfolio
Introducing the new Dell Latitude Rugged family

Get best-in-class reliability and productivity in the harsh conditions you face every day with Dell’s Latitude Rugged portfolio. With the most secure and manageable rugged computers available, you can focus on your work.

Learn More at Dell.co.uk/rugged

1 Savings are estimates based on a Dell analysis comparing costs of several system management cost scenarios, such as OS deployment, power management and BIOS changes. Cost projections based on U.S. data 2007-2012. For more information, talk to your Dell Sales Representative.
The real world can be challenging, but you face the challenges head on. Latitude Rugged provides the tools you need to help you stand strong in the face of adversity.

**Rugged for the real world**
You can’t slow down when the job is tough. No matter what challenges the world throws at you, handle them with confidence. Latitude Rugged means extreme durability for world-class reliability in rough conditions.

**Productivity anywhere**
You need to stay productive and work efficiently even when the elements are working against you. Latitude Rugged is designed for the way you work with features like outdoor-readable displays, glove-capable touch, legacy IO capability and advanced wireless connectivity.

**Business-class control**
The Dell Latitude Rugged portfolio allows you to take your business to the world’s most challenging job sites. Latitude Rugged systems keep you in control of your technology with the same industry-leading security, manageability and reliability as the rest of the Dell Latitude portfolio.

- Outdoor-readable screens with anti-glare treatment and glove-touch capability
- Sealed, customizable RGB backlit keyboards on all notebooks and available for the tablet
- Webcams with physical privacy shutters
- Powerful and efficient Intel® processors
- Intel 802.11ac Wi-Fi with optional mobile broadband and dedicated GPS
- Common docking across Latitude Rugged notebooks and specialized docking for the tablet; all with durable pogo-pin interface
- Independently-certified to MIL-STD-810G tests and IEC ingress protection standards
- Confident security with Dell Data Protection Encryption and TPM
Choose your **rugged device.**

Engineered and tested to excel in the most extreme work environments and situations, the Dell Latitude 12 Rugged Tablet is built to work everywhere you do.

- Crisp 11.6” Direct-View outdoor-readable display with glove-capable multi-touch
- Extensive ecosystem including desk dock, vehicle dock, keyboard and modular expansion
- Power for your whole shift with optional dual hot-swap batteries
- Fully rugged construction with the most durable materials available
- Fully sealed from dust and water ingress
- Webcam with physical shutter and 8MP back camera with flash

1 Tested system equipped with 8GB RAM, Intel® M-5Y71 CPU, 256GB SSD and GPS. Based on testing using the Mobile Mark 2012 battery life benchmark test.
Latitude 12 Rugged Extreme

The world doesn’t stand still. You never know what the day will throw at you. You roll with the punches and so will your Latitude 12 Rugged Extreme with a flip-hinge display that converts seamlessly between a notebook and a tablet.

- Crisp 11.6” Direct-View outdoor-readable display with glove-capable multi-touch
- The industry’s first rugged flip-hinge convertible
- Fully rugged construction with the most durable materials available
- Fully sealed from dust and water ingress
- Webcam with physical shutter and 8MP back camera with flash

Adapt to whatever life throws at you.
Get durable performance and productivity wherever work takes you with the Latitude 14 Rugged. Built from the same rock-solid DNA as our Latitude Rugged Extreme systems, trust the security, manageability and reliability that never settles for "good enough."

- Expansive 14” outdoor-readable display with optional glove-capable touch
- Rugged construction with durable materials
- Protected from dust and water ingress
- Optional discrete graphics
- Dual native serial and Ethernet ports and optional PCMCIA reader
Be bold when the going gets rough.

Latitude 14 Rugged Extreme

Life happens in the real world, where your notebook may be exposed to hazards such as accidental drops, vibration, water, dust and extreme temperatures. The Latitude 14 Rugged Extreme was built to thrive in the worst conditions you face on the job.

- Expansive 14” Direct-View outdoor-readable display with gloved-capable touch
- Fully rugged construction with the most durable materials available
- Fully sealed from dust and water ingress
- Optional discrete graphics
- Dual native serial and Ethernet ports and optional PCMCIA reader
It’s never been easier to outfit your office and fleet of vehicles. Meet the Latitude Rugged family of docking solutions for your rugged notebooks and tablets. With a set of desk docks and vehicle docks from Havis.

- Notebook docks that adjusts to fit all Latitude Rugged notebooks with a simple toolless adjustment
- Tablet docks designed for the unique ergonomics of a tablet
- Industry standard crash and vibration certifications on the vehicle docks

Secure your command center.
Your job happens in the real world, an unpredictable place where drops, vibration, rain, dust, heat, humidity and a variety of other hazards are a reality. You can’t afford to be down because of equipment failure.

Latitude Rugged products are the result of extensive testing to ensure world-class reliability in the demanding conditions you operate in every day.

Latitude Rugged products are independently-certified to the standards including MIL-STD-810G and IEC ingress as well as MIL-STD-416F and ANSI/ISA.12.12.01 on fully rugged products.

We go even further during development and take our products beyond the standards to find the breaking point, so we can address issues before they emerge in the real world.

**Tested to fail. Certified to survive.**
