STATEMENT OF COMPLIANCE

This product has been determined to be compliant with the applicable standards, regulations, and directives for the countries where the product is marketed. The product is affixed with regulatory marking and text as necessary for the country/agency. Generally, Information Technology Equipment (ITE) product compliance is based on IEC and CISPR standards and their national equivalent such as Product Safety, IEC 60950-1 and European Norm EN 60950-1 or EMC, CISPR 22/CISPR 24 and EN 55022/55024. Dell products have been verified to comply with the EU RoHS Directive 2011/65/EU. Dell products do not contain any of the restricted substances in concentrations and applications not permitted by the RoHS Directive.

EMC Emissions Class refers to one of the following use environments:
•  EMC Class B products are intended for use in residential/domestic environments but may also be used in non-residential/non-domestic environments.
•  EMC Class A products are intended for use in non-residential/non-domestic environments. Class A products may also be utilized in residential/domestic environments but may cause interference and require the user to take adequate corrective measures.

For Product Safety and EMC compliance, this product has been assigned a unique regulatory model and regulatory type that is imprinted on the product labeling to provide traceability to the regulatory approvals noted on this datasheet. This datasheet applies to any product that utilizes the assigned regulatory model and type including marketing names other than those listed on this datasheet. ErP compliance is tied to the CE mark.

REACH (Registration, Evaluation, Authorization and Restriction of Chemicals, 1907/2006) is the European Union’s (EU) chemical substances regulatory framework. Dell complies with the REACH directive. For information on SVHC (Substances of Very High Concern), see www.dell.com/REACH.
Compliance documentation, such as certification or Declaration of Compliance for the product is available upon request to regulatory_compliance@dell.com. Please include product identifiers such as marketing name, regulatory module, regulatory type and country that compliance information is needed in request.

II. NFPA 99 CONFORMITY

Select Dell systems have been tested and found to comply with the touch current requirements as defined in 10.3.5 of National Fire Protection Association standard NFPA 99:2012. The touch current does not exceed 100 µA with ground wire intact (if a ground wire is provided) and 500 µA with ground disconnected at 127 V AC, 60 Hz when tested in accordance with 10.3.5 of NFPA 99: 2012. To determine if this product complies with the above requirements, send a request to regulatory_compliance@dell.com. Please include product identifiers such as marketing name, regulatory type and country for which compliance information is needed.
III. POWER CORDS AND USER DOCUMENTATION

Dell products are provided with the power cord and user documentation suitable for the intended country of delivery. Products that are relocated to other countries should use nationally certified power cords and plugs to ensure safe operation of the product. Contact Dell to determine if alternate power cords or user documentation in other languages is available for your market.

IV. DATASHEET RESPONSIBLE PARTY NAME AND ADDRESS

Dell Inc.
Department: Global Regulations and Standards
MS: PS4-30
Round Rock, Texas 78682, USA
Regulatory_Compliance@Dell.com

V. TRADE (IMPORT/EXPORT) COMPLIANCE DATA

For any questions related to importing & exporting classification of Dell products, please obtain information from the following link: www.dell.com/import_export_compliance or send request to WW_Export_Compliance@dell.com

VI. SYSTEM DIMENSION AND WEIGHT

For product dimension and weight, please refer to product specification/userguide/usermanual at www.dell.com

VII. PERFORMANCE DATA

Energy Consumption¹

¹ This document is informational only and reflects laboratory performance. Your product may perform differently, depending on the software, components and peripherals you ordered. Accordingly, the customer should not rely upon this information in making decisions about electrical tolerances or otherwise. No warranty as to accuracy or completeness is expressed or implied.
The system is running programs to maximize the power consumption.

The product is connected to a power source and produces an image.

The reduced power state the display enters after receiving instructions from a content source (e.g. computer, game console, or set-top box), or via other functions (e.g. timers or sensors). A blank screen and reduction in power consumption characterize this mode. The display returns to On Mode with full operational capability upon sensing a signal from a source or function that can initiate that can initiate the reduced power state.

The system is turned off but is still connected to its AC power source.

*Maximum Energy Consumption results are based solely upon the laboratory testing of the System Configuration listed above.

* Energy Consumption results are based solely upon the laboratory testing of the System Configuration listed above. Energy consumption is tested at 230 Volts / 50 Hz.

Energy Consumption*

Energy efficiency benefits the environment and lowers the total cost of equipment ownership by reducing power consumption. Dell offers energy calculators that help estimate power needs, potential emissions avoidance and potential cost savings. Click here for Dell’s Client Energy Savings Calculator, Data Center Capacity Planner, and Monitor Power Savings Calculator. Information on Energy Efficiency is available here

* This document is informational only and reflects laboratory performance. Your product may perform differently, depending on the software, components and peripherals you ordered. Accordingly, the customer should not rely upon this information in making decisions about electrical tolerances or otherwise. No warranty as to accuracy or completeness is expressed or implied.

VIII. PRODUCT MATERIALS INFORMATION*

Information on Dell’s material use is available here.
To review Dell’s Restricted Material Guidance document click here.

- The case material is, >ABS-HB<
  - This product contains 25% post-consumer recycled plastic

2 Waste Handling. Local regulations should be observed when disposing of this product due to the presence of the materials and substances as listed above.
Marking of plastic parts greater than 25 grams are done in accordance with ISO 11469 (see below)

Flame Retardants Used in Motherboard

- Restricted Material Compliance [www.dell.com/environmental_information](http://www.dell.com/environmental_information)
- Products MSDS (Material Safety Data Sheets):

PACKAGING

Information on Dell’s sustainable packaging effort available [here](http://www.dell.com/environmental_information). Additional materials restricted in Packaging as per Dell’s Restricted Material Guidance document found [here](http://www.dell.com/environmental_information).
Carton box (Corrugated Fibred Board) | 0.959 | 25%
Molded Paper Pulp | 0.311 | 100%
Plastic bags- Others(Mixture Plastics) | 0.056 | 0%

For more details on packaging please click [www.dell.com/environmental_information](http://www.dell.com/environmental_information)

**IX. BATTERIES**

Below is a listing of batteries that could be present in the product:

<table>
<thead>
<tr>
<th>Battery Description – Batteries</th>
<th>Battery Type</th>
<th>Battery Weight (kg)</th>
</tr>
</thead>
<tbody>
<tr>
<td>CR-2032 coin cell</td>
<td>Lithium</td>
<td>NA</td>
</tr>
<tr>
<td>AA or AAA Remote Control Battery</td>
<td>Alkaline</td>
<td>NA</td>
</tr>
<tr>
<td>AA or AAA Wireless Mouse and/or Keyboard</td>
<td>Alkaline</td>
<td>NA</td>
</tr>
<tr>
<td>Rechargeable Battery x cell</td>
<td>Lithium Ion</td>
<td>NA</td>
</tr>
</tbody>
</table>

For more details on batteries including MSDS please click [www.dell.com/environmental_information](http://www.dell.com/environmental_information)

**X. DESIGN FOR ENVIRONMENT**

Dell systems are, when applicable, designed for easy assembly, disassembly, and servicing. For more information on product Recyclability please visit [www.dell.com/environmental_information](http://www.dell.com/environmental_information)

**XI. RECYCLING/ END-OF-LIFE SERVICE INFORMATION**

Take back and recycling services are offered for this product in certain countries. If you want to dispose of system components, contact Dell for instructions by emailing recycling_emea@dell.com or visit [www.dell.com/recyclingworldwide](http://www.dell.com/recyclingworldwide) and select the relevant country.
