

# Titanium™ Internet Security

Business protection against viruses and threats

Strong, fast and easy-to-use security—Dell recommends Trend Micro™ Titanium™ Internet Security to provide advanced protection for your business so you can connect with confidence. It uses the same technology we use to protect some of the world's biggest business, now available to you.

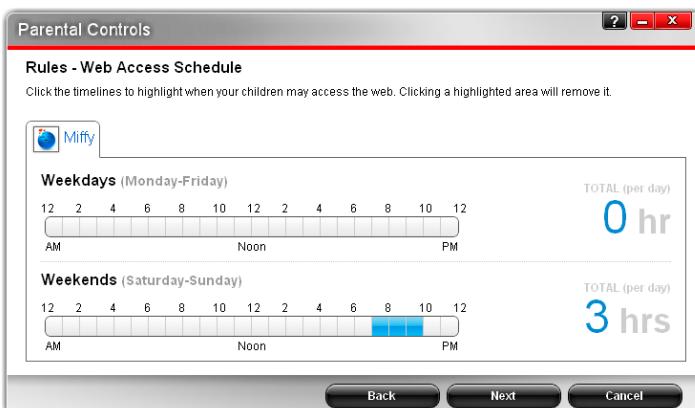

- Uses cloud technology to proactively stop threats before they reach you
- Utilises less than half the disk space and memory of other security products<sup>1</sup>
- Intuitive interface is easy to install and use
- Set-and-forget security—won't hassle you with alerts and pop-ups
- Shop and bank on-line securely with data theft prevention

<sup>1</sup> Based on Tolly Test Report, "Trend Micro Titanium Maximum Security 3.0-Consumer Endpoint Security Performance vs K7, Kaspersky, McAfee & Symantec (Norton)", Comissioned by Trend Micro, Inc., September 2010

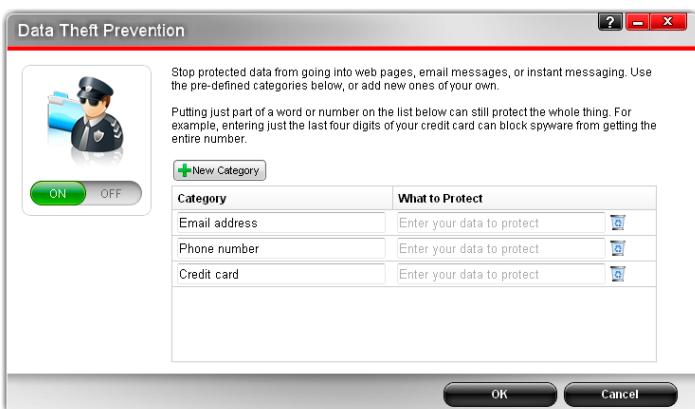

## Easy, customisable employee Internet controls

Easily protect your business from employees surfing inappropriate websites, limit their time on the internet, and see detailed reports about what they do online, without having to look over their shoulders.

## Data theft prevention

Prevent hackers and spyware from stealing sensitive data like credit card numbers, passwords and email addresses.

## Strong protection made simple

From the main Titanium console screen, you can run a scan or get up-to-the-minute status reports on your computer's security.

# Trend Micro™ Titanium™ Internet Security

## Detailed security reports

Easy to read graphic reports provide you with all the details about the threats that attack your computer. You can drill down into detailed logs with just one click.
