The Dell 5330dn laser printer

Performance you can trust for your most challenging printing needs

Experience the sheer performance and workgroup versatility with the Dell 5330dn, a fast-networked monochrome laser printer.

Fast, robust, and affordable, the Dell 5330dn is built for the demanding enterprise network or office environment of tomorrow, providing high-speed and high-quality printing. Optional upgradable features like input and output accessories and wireless adapter[1] connectivity allow for easy adaption to meet even the most stringent business requirements.

Equipped with a built-in, two-sided print feature, the Dell 5330dn helps save time and money by conserving paper usage. Help reduce costs without sacrificing performance and speed with low toner cost per page. Easily manage and order supplies with the Dell Toner Management System.

Exceptional Performance

- High-speed printing – up to 50 ppm – actual print speed will vary with use
- Expandable memory to allow fast printing of high-quality complex documents – up to 768MB – when you combine the standard 256MB with optional 512MB memory module
- Crisp text and enhanced graphics at 600 x 600 dpi print resolution (1200 Image Quality)
- Dependable and reliable – up to 250,000 pages maximum monthly duty cycle
- Robust paper-handling features, including standard double-sided printing and optional 500-sheet drawers

Easy to Use

- Lower cost per page with the optional high-capacity toner cartridge (up to 20,000 pages yield[2]) helps reduce toner replacement frequency
- Connect easily through standard Ethernet, parallel, and USB 2.0 ports
- Easy toner cartridge access from the side

- Standard 100-sheet multipurpose and 500-sheet trays; up to three optional 500-sheet trays to maximize input capacity to 3,100 pages and help minimize the frequency of paper replenishment
- Fuser maintenance kit replacement included in base and extended limited hardware warranties[4]

Environmentally Conscious Design

The Dell 5330dn printer paper drawer supports the use of recycled paper. The "N-up" multiple-sheet feature reduces paper consumption by enabling multiple pages to be printed on a single sheet of paper. And the Energy Star®-certified 5330dn can use up to 25% less power than conventional models. (Source: www.energystar.gov)
