

DATA ACT RELATED SERVICE DATA DISCLOSURE

This Disclosure covers the following related services:

- OpenManage Network Integration, SmartFabric Storage Software, SmartFabric Manager collects data from the following connected product(s): PowerSwitches running Dell Enterprise SONiC OS and PowerSwitches running Dell SmartFabric OS10

Connected Product Information

Type, Estimated Volume, and Collection Frequency of Product Data:

Note: As used in this Disclosure, “Product data” means raw and pre-processed data generated by the use of a connected product that Dell has designed to be retrievable.

The connected product generates various types of product data, including:

- System health metrics, performance metrics, configuration data, inventory information, event and fault logs, topology and connectivity details.

Dell does not collect product data from the connected product.

Related Service Information

Type and Estimated Volume of Related Service Data:

Note: As used in this Disclosure, “related service data” means raw and pre-processed data representing the digitization of user actions or of events related to the connected product, recorded intentionally by the user or generated as a by-product of the user’s action during the provision of the related service by Dell.

Dell does not collect related service data from this related service.

Data Storage:

The related service does not store product data and related service data (collectively called “readily available data”) on remote, Dell-managed servers.

Access to Data:

Users can review a copy of their readily available data currently in Dell’s possession by visiting the [Dell Privacy Center](#) and selecting [Request Data Access](#), then choosing the EU Data Act request option.

Dell’s Contact Information:

Dell Products Unlimited Company
70 Sir John Rogerson's Quay
Dublin, D02 R296
Ireland

For more information about the Data Act, access requests, and more, and to contact us with any questions, visit the [Dell Security and Trust Center](#).
