

# AMD THREADRIPPER PRO

**DESIGN. BUILD. ACCELERATE.**  
**ON THE ULTIMATE WORKSTATION PROCESSOR FOR  
MEDIA & ENTERTAINMENT**

## LEADERSHIP PERFORMANCE COMPARED TO INTEL® XEON® W-3400 SERIES<sup>1</sup>

The creation of cutting-edge visual effects continues to evolve towards increasing complexity. New workflows like virtual production and are driving the need for high compute capability on-set while the demands of 8k rendering and post-production editing can push production capacity to its limits. When the limits of creativity are bound by computer hardware, it is no wonder that performance seeking artists and world-class VFX studios are constantly looking for a competitive edge.

AMD Ryzen™ Threadripper™ PRO 5000 WX-Series processor-based workstations offer leading full spectrum compute capability<sup>1</sup> along with exceptional platform expandability and are equipped to help increase creative iterations throughout your pipeline through reduced render times, seamless 3D modeling and animation and enhanced multitasking.

**UP TO  
64 CORES**

TO ACCELERATE  
MULTITHREADED TASKS

**HIGH  
FREQUENCIES**

FOR SEAMLESS 3D MODELING  
AND DESIGN

**LARGE MEMORY  
CAPACITY**

TO TACKLE THE MOST  
DEMANDING PROJECTS

**128 PCIe®  
4.0 LANES**

FOR ULTIMATE  
EXPANDABILITY

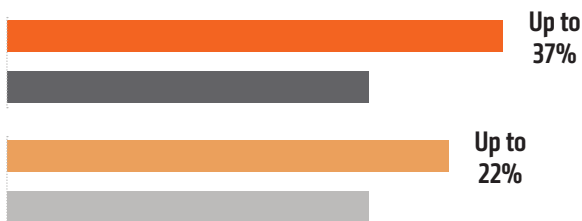

## UPGRADE TO THE RIGHT TOOL FOR THE JOB

AMD Ryzen™ Threadripper™ PRO Processors outperform the competition in both lightly threaded and multi-threaded workloads. For 3D artists, this means you don't have to sacrifice productivity when switching between tasks with different compute requirements.

Take advantage of Threadripper™ PRO processor's high frequency cores for general 3D modeling and animation tasks with tools like Autodesk Maya and up to 64 cores for generating photorealistic renderings and animation with popular render engines like Chaos V-Ray. AMD Ryzen™ Threadripper™ PRO 5000 WX-Series outperform Intel® Xeon® W-3400 series in VFX workflows<sup>1</sup>

Autodesk Maya<sup>1</sup>

Chaos V-Ray<sup>1</sup>

■ AMD Ryzen™ Threadripper™ PRO 5995WX (64 Cores)  
■ AMD Ryzen™ Threadripper™ PRO 5975WX (32 Cores)

■ Intel® Xeon® w9-3495X (56 Cores)  
■ Intel® Xeon® w5-3475X (36 Cores)

## AMD PRO TECHNOLOGIES

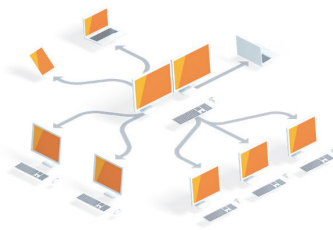

AMD PRO technologies provides layers of security features, seamless manageability, and reliable longevity so you can work confidently and securely. AMD innovations go beyond pure processing speed because today's modern workplace needs every possible advantage.

### AMD PRO SECURITY FEATURES

- Designed from the ground up with security features as a priority
- An integrated security processor helps protect confidentiality and integrity of data

### AMD PRO MANAGEABILITY

- Remotely update and repair networked devices
- Monitor, restore, and upgrade systems
- Fix a wide range of client issues in-band and out-of-band

### AMD PRO BUSINESS READY

- 18 months of planned software stability brings peace of mind
- 24 months of planned availability for a stable enterprise
- Enterprise-grade quality
- Long term reliability

## MODEL SPECIFICATIONS

Model	Cores/ Threads	Boost <sup>2</sup> /Base Frequency	L3 Cache	Memory Channels	TDP	AMD PRO Technologies
AMD Ryzen™ Threadripper™ PRO 5995WX	64 / 128	Up to 4.5GHz / 2.7GHz	256MB	8	280W	✓
AMD Ryzen™ Threadripper™ PRO 5975WX	32 / 64	Up to 4.5GHz / 3.6GHz	128MB	8	280W	✓
AMD Ryzen™ Threadripper™ PRO 5965WX	24/48	Up to 4.5GHz / 3.8GHz	128MB	8	280W	✓
AMD Ryzen™ Threadripper™ PRO 5955WX	16 / 32	Up to 4.5GHz / 4.0GHz	64MB	8	280W	✓
AMD Ryzen™ Threadripper™ PRO 5945WX	12 / 24	Up to 4.5GHz / 4.1GHz	64MB	8	280W	✓

#### FOOTNOTES:

1. Based on AMD performance lab testing as of January July, 2023 using the SPEC Workstation 3.1 Media and Entertainment metric, SPEC Workstation 3.1 Product Development PTC Creo subset metric, SPEC Workstation 3.1 Life Sciences overall metric, SPEC Workstation 3.1 Financial Services overall metric, SPEC Workstation 3.1 Energy overall metric, the V-Ray CPU performance benchmark, the PugetBench for Adobe AfterEffects v0.95.7 benchmark, the PugetBench for Premiere Pro v0.98.0 benchmark, the SPECcapc Maya 2023 CPU composite metric, the Unreal Engine 5.1 compilation benchmark, the Chromium Compilation 115.0.5740 benchmark, the SPECcapc for Solidworks 2022 CPU composite metric, the Keyshot CPU rendering benchmark, the Puget Metashape total Processing time (Rock Model) benchmark, and the Corona rendering (Rays/Sec) benchmark, to compare the performance of AMD Ryzen Threadripper PRO 5995WX, 5975WX, 5965WX, 5955WX, 5945WX processors in reference systems configured with 8x64GB DDR4, NVIDIA Quadro RTX A5000, 1TB SSD, Win 11 vs. a similarly configured BOXX workstation with Intel Xeon w9-3495X, w9-3475X, w7-3455X, w5-3435X, w5-3425X, w7-2495X, w7-2465X processors Workstation manufacturers may vary configurations, yielding different results. Results may vary. CGP-45
2. Max boost for AMD Ryzen™ processors is the maximum frequency achievable by a single core on the processor running a bursty single-threaded workload. Max boost will vary based on several factors, including, but not limited to: thermal paste; system cooling; motherboard design and BIOS; the latest AMD chipset driver; and the latest OS updates. GD-150
