

Your Security is our Top Priority

Introducing additional Premier login protection measures.

Dell Premier Login Verification

Your security is our top priority. We are therefore taking further measures to provide our customers with a safe and enjoyable shopping experience on Dell's Premier page. For this reason, we require you to register your device with us for future access.

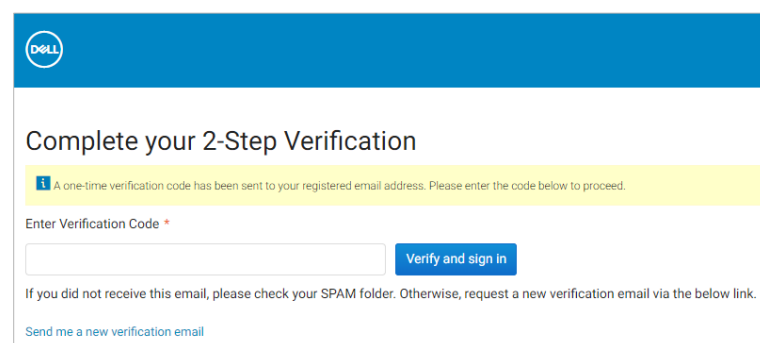

We are introducing the following change: When you log in to Premier, a one-time verification code will be sent to your registered email address. Please enter the provided code to proceed as usual. This one-time code is time sensitive and valid for a single use only.

Please note, each time we detect suspicious activity or if login to your Premier account is attempted with a device that is not registered with us, we require you to enter a one-time code to confirm your login credentials.

For assistance, please engage Premier Support in your region: [AMER](#) | [EMEA](#) | [APJ](#).

Thank You

Dell Premier Team

When you log in to Premier, a one-time verification code will be sent to your registered email address.
