Our Partnerships Lead to Your Success

Dell partners with industry-leading technology companies to solve today's most complex problems of application computing. Our highly collaborative approach results in tested, optimized solutions that can help you cut costs and raise efficiency and productivity. This combination of purpose-built solutions and a common passion to enable the world's most creative minds has helped Dell forge lasting partnerships with some of the most advanced software companies in the world.

An important part of providing solutions to professional users is validating that Dell Workstations function properly with partner products. With that in mind, we spend thousands of hours testing applications to make sure you have a great experience and get professional support when problems arise.

Please reference this [Dell Precision Certification Document](#) or [Legacy Dell Precision Certification Document](#) to see the full list of certified partner products.

Dell Precision Windows OS Support by Processor

Dell Precision mobile models 3520, 5520, 7520, 7720 and Precision fixed models Tower 3420, Tower 3620 and 5720 AIO are offered with Intel Core and Xeon processors. 7th generation Core and 6th generation Xeon processors are capable of running Windows 10, not Windows 8.1 or 7. 6th generation Core and 5th generation Xeon processors are capable of running Windows 10, 8.1, 7. Please consider this information when referencing this certification document and purchasing these products.
