Dell’s robust and reliable 1-socket tower server, the PowerEdge T310, offers the performance of DDR3 memory, advanced systems management options, and the availability of up to four hard drives (3.5” or 2.5”) in a compact tower chassis.

Right-sized, flexible technology and business value

The Dell PowerEdge T310 was designed to meet the needs of your growing small business or remote office by offering more features and performance than a basic, entry-level server. Customizable with optional advanced systems management capabilities including remote management, a short 20.5-inch chassis, redundancy features, and cost-effective RAID options, the T310 is the ideal robust and reliable 1-socket tower server.

Dell aims to add value to your business by providing the features you need. Our goal is to deliver value through tailored solutions based on industry standards, as well as purposeful, innovative design.

Purposeful design

The PowerEdge T310, part of the 11th generation PowerEdge server portfolio, is built with system design commonality and reliability. All 11th Generation servers are built with user ease in mind. All external ports, power supplies, LEDs, and LCD screens are kept in the same location for familiar user experience and easy installation and deployment.

Robust, metal hard drive carriers and organized cabling are designed to improve component access and airflow across the server. The PowerEdge T310’s purposeful design provides quiet acoustics and an optional interactive LCD screen positioned on the front by the bezel for ease of monitoring. With a chassis depth of 20.5 inches, the PowerEdge T310’s chassis is ideal for use in a back office, retail, or small office setting where space and acoustics matter.

Energy-optimized technology

Energy Smart technologies are at the core system level on the PowerEdge T310. These energy-optimized technologies are designed to increase energy efficiency within the server while continuing to deliver the performance your business requires. Built with lower wattage power supplies than its predecessor, the PowerEdge T310 offers highly efficient cabled or redundant power supply options. Also included in the T310 are highly efficient fans, designed to spin faster in accordance with server workload demands and help reduce unnecessary noise when possible. In addition, the logical component layout aids with airflow direction, helping to keep the server cool.

Simplified systems management

The Lifecycle Controller is the engine for advanced embedded management and is delivered as part of the optional iDRAC Express or iDRAC Enterprise in the PowerEdge T310. The Lifecycle Controller helps to deliver faster server deployment and update capabilities from a bare-metal, pre-operating system environment. With the Unified Server Configurator (USC) interface, the USC tool provides a single interface that enables efficient operating system deployment with built-in driver installations, firmware updates, hardware configuration, and diagnostics for the system. Servers selected with hot-pluggable hard drives will also get the benefit of an interactive LCD that can be accessed remotely using optional iDRAC Express or iDRAC Enterprise for system alerts and power usage as well as select boot-up options.

Also part of the Dell OpenManage™ portfolio is the Dell Management Console, which is included with every Dell server and provides IT administrators with a consolidated view of their IT infrastructure.

The Dell PowerEdge T310 was designed to meet the needs of your growing small business or remote office.
### Feature

<table>
<thead>
<tr>
<th>PowerEdge T310 technical specification</th>

</table>
| **Processors** Quad-core Intel® Xeon® processor 3400 series  
Dual-core Intel Celeron® G1101  
Intel Pentium® G6950  
Dual-core Intel Core® i3 processor 500 series |
| **Processor sockets** 1 |
| **Front Side Bus (FSB) or HyperTransport** Intel DMI (Direct Media Interface) |
| **Cache** 8MB |
| **Chipset** Intel 3400 |
| **Memory**
| Up to 32GB (6 DIMM slots): 1GB/2GB/4GB/8GB DDR3 up to 1333MT/s |
| **I/O slots** 5 PCIe G2 slots:
  - Two x8 slots
  - One x4 slot
  - Two x1 slots |
| **RAID controller**
| Internal:
  - PERC H200 (6Gb/s) with 512MB battery-backed cache; 512MB, 1GB Non-Volatile battery-backed cache  
  - 6i/6iR
  - PERC S100 (software based)  
  - PERC S300 (software based)
| External:
  - PERC H800 (6Gb/s) with 512MB of battery-backed cache; 512MB, 1GB Non-Volatile battery cache  
  - PERC 6/E with 256MB or 512MB of battery-backed cache  
  - External HBAs (non-RAID):
    - 6Gbps SAS HBA  
    - SAS 5/E HBA  
    - LSI2032 PCIe SCSI HBA |
| **Drive bays**
| Cabled hard drive options: Up to four 3.5” SAS or SATA drives  
Hot-plug hard drive options: Up to four 3.5” SAS or SATA, or 2.5” SAS or SSD drives |
| **Maximum internal storage**
| Up to 12TB |
| **Hard drives**
| 2.5” SATA SSD, SAS (10K)
| 3.5” SAS (15K, 10K), nearline SAS (7.2K), SATA (7.2K)
| Cabled hard drive options:
  - 3.5” SAS (15K, 10K), nearline SAS (7.2K), SATA (7.2K) |
| **Communications**
| Broadcom® NetXtreme® 5709 Dual Port Gigabit Ethernet NIC, Copper, with TOE PCIe x4  
Broadcom NetXtreme 5709 Dual Port Gigabit Ethernet NIC, Copper, TOE/SCSI PCIe x4  
Intel® PRO/1000 PT Single Port Adapter, Gigabit Ethernet NIC, PCIe x 1  
Intel Gigabit ET Dual Port and Quad Port Adapters, Gigabit Ethernet NIC, PCIe x4  
Intel Gigabit ET Dual Port Server Adapter and Intel Gigabit ET Quad Port Server Adapter

Optional add-in HBAs:
  - QLogic® QLE 2462 FC4 Dual Port 4 Gbps Fiber Channel HBA  
  - QLogic QLE 2460 FC4 Single Port 4 Gbps Fiber Channel HBA  
  - Emulex® LPe-11002 FC4 Dual Port 4 Gbps Fiber Channel HBA, PCIe x4  
  - Emulex LPe-1150 FC4 Single Port 4 Gbps Fiber Channel HBA, PCIe x4 |
| **Power supply**
| Single-cabled power supply (375W)/optional redundant power supply (400W) |
| **Availability**
| Quad-pack LED diagnostic, interactive LCD with hot-plug hard drive chassis, hot-plug hard drive, redundant PSU |
| **Video**
| Matrox® G200eW with 8MB memory |
| **Remote management**
| iDRAC6 |
| **Systems management**
| Dell™ OpenManage™  
BMC, IPMI 2.0 compliant  
Unified Server Configurator  
Lifecycle Controller enabled through optional IDRAC6 Express, IDRAC6 Enterprise, and vFlash media |
| **Operating systems**
| Microsoft® Windows Server® 2012  
Microsoft® Windows Server 2012 Essentials  
Microsoft® Windows® Small Business Server 2011  
Microsoft Windows Small Business Server 2008  
Microsoft Windows Server® 2008 SP2, x86/x64 (x64 includes Hyper-V®)  
Microsoft Windows Server 2008 R2 SP1, x64 (includes Hyper-V v2)  
Microsoft® Windows HPC Server 2008  
Novell® SUSE® Linux Enterprise Server  
Red Hat® Enterprise Linux® |
| **Virtualization options:**
| VMware® vSphere® ESXi™ and ESXi™  
Red Hat Enterprise Virtualization® |

### Dell Services

Dell Services can help reduce IT complexity, lower costs, and eliminate inefficiencies by making IT and business solutions work harder for you. The Dell Services team takes a holistic view of your needs and designs solutions for your environment and business objectives while leveraging proven delivery methods, local talent, and in-depth domain knowledge for the lowest TCO.
