The PowerEdge C4140 is the industry's leading accelerator-optimized, ultra-dense server platform. It handles the most demanding cognitive and technical computing workloads. The C4140 delivers un-throttled performance with its unique interleaved GPU design and no-compromise acceleration technology. Dell EMC offers pre-configured Ready Bundles for Machine Learning and Deep Learning applications and empowers enterprises to easily adopt and quickly deploy their Cognitive and HPC solutions using Dell EMC PowerEdge C4140. For low latency, high performance applications such as Machine Learning, Deep Learning or Financial, the Dell EMC PowerEdge C4140 is the right fit.

Innovative management with intelligent automation

The Dell EMC OpenManage systems management portfolio enables peak efficiency for PowerEdge servers, through intelligent, automated management of routine IT tasks. Combined with the unique, agent-free management capabilities of the embedded iDRAC9 with Lifecycle Controller, the C4140 is effortlessly managed, freeing up your time for high profile projects.

- Increase IT data protection and integrity with the embedded security features of iDRAC9.
- Improve IT productivity and agility with OpenManage Essentials: from bare-metal deployment to ongoing maintenance, and enforcement of IT policies within production environments.

End-to-end server ecosystem and lifecycle security

Every PowerEdge server is made with a cyber-resilient architecture, building security into all parts of a server’s life cycle. The C4140 uses these enhanced security features to reliably and securely deliver the right data to where your customers are. Dell EMC considers each phase of system security, from design to end of life, to ensure trust and deliver worry-free, secure systems.

- Rely on a secure component supply chain to ensure protection from factory to the data center.
- Maintain data safety with cryptographically signed firmware packages and Secure Boot.
- Prevent unauthorized or malicious change with Server Lockdown.
- Wipe all data from storage media including hard drives, SSDs and system memory quickly and securely with System Erase.

PowerEdge C4140

- Accelerator optimized, high density rack server
- Supports four GPUs
- Purpose built for cognitive and technical workloads
## PowerEdge C4140

<table>
<thead>
<tr>
<th>Features</th>
<th>Technical Specification</th>
</tr>
</thead>
<tbody>
<tr>
<td>Processor</td>
<td>Two Intel® Xeon® Scalable processors, up to 20 cores per processor</td>
</tr>
<tr>
<td>Memory</td>
<td>Up to 24 DDR4 DIMMs in total; Supports RDIMM /LRDIMM speeds up to 2666, 1.5 TB Max ECC Registered DDR4</td>
</tr>
<tr>
<td>Storage controllers</td>
<td>IDSDM or Internal M.2 Boot Module (2 x M.2) -120G or 240G (mirrored configuration)</td>
</tr>
<tr>
<td>Power supplies</td>
<td>2000W, 2400W hot-plug, Redundant power supply unit (PSU)</td>
</tr>
<tr>
<td>Accelerators</td>
<td>NVIDIA® Tesla® P40, P100 12GB PCIe, P100 16GB PCIe and NVLink™, V100 16GB PCIe and NVLink GPUs</td>
</tr>
</tbody>
</table>
| Network daughter cards and Optional adapters | Support for the following Network Daughter Cards: Intel® 10 GbE (2 + 2) Base-T  
Support for the following PCIe N/W adapters: Mellanox ConnectX®-6 Single Port VPI QSFP28 EDR LP PCIe Adapter  
Mellanox ConnectX®-6 Dual Port VPI QSFP28 EDR LP PCIe Adapter |
| Dimensions                     | 4.28 cm (1.69 in), W: 43.4 cm (17.09 in), D: 92.62 cm (36.46 in) Max weight: 24 kg (52.91 lb) |
| Embedded / At-Server            | iDRAC9 with Lifecycle Controller                                                        |
| Consoles                       | OpenManage Enterprise  
OpenManage Essentials  
OpenManage Server Administrator  
OpenManage Power Center         |
| Security                       | TPM 1.2/2.0 optional  
Cryptographically signed firmware  
Silicon Root of Trust  
Secure Boot  
System Lockdown  
System Erase                        |
| I/O & Ports                    | Four (4) Double Wide accelerator Gen3 x16 PCIe slots  
Two (2) low profile Gen3 x16 PCIe slots  
Front ports: Power button, System ID / Status LED, Health Status LED  
Rear ports: 2 USB 3.0 Port and iDRAC ethernet port |
| Supported operating systems    | Canonical® Ubuntu® Server LTS 16.04.3  
Red Hat® Enterprise Linux 7.4  
SUSE® Linux Enterprise Server 12 SP3®
