Dell ENERGY STAR Networking products

As an ENERGY STAR® program partner for over two decades, Dell has been an active participant with an ongoing commitment to energy efficiency, and we are proud to list the following Dell™ Networking products that have earned the ENERGY STAR Large Network Equipment designation.

Dell ENERGY STAR qualified Large Network Equipment products

Dell N-Series Switches

The N-Series family of energy-efficient, cost-effective 1GbE and 10GbE switches offers simple management and scalability for campus networks.

Dell Networking N4064
Dell Networking N4064F
Dell Networking N4032
Dell Networking N4032F
Dell Networking N3048
Dell Networking N3048P
Dell Networking N3024
Dell Networking N3024F
Dell Networking N3024P

Dell S-Series Switches

The S-Series product line offers a range of modular and fixed configuration 1/10/40GbE systems designed principally for data center top-of-rack and aggregation applications.

Dell Networking S5000 FCoE
Dell Networking S5000 10 BaseT
Dell Networking S4820T
Dell Networking S3048
Dell Networking S3148P
Dell Networking S3124P

Dell offers the following PDUs and Temperature Sensors for those Dell Networking switches which have earned the ENERGY STAR Large Network designation:

Raritan Computer PX3-5147R PDU
Raritan Computer PX3-5453R PDU
RARITAN COMPUTER DPX-T1 Temperature Sensor
