NOTES:

Hard Drives: GB means 1 billion bytes and TB equals 1 trillion bytes; actual capacity varies with preloaded material and operating environment and will be less.

Graphics & System Memory: GB means 1 billion bytes and TB equals 1 trillion bytes; significant system memory may be used to support graphics, depending on system memory size and other factors.

Intel Wireless Display: Requires an Intel wireless card, a compatible Media Adapter (sold separately) and an HDMI or composite AV-enabled display.

Wireless connectivity: Where wireless access is available. Additional access charges apply in some locations.

Notebook Weight: Weights vary depending on configuration and manufacturing variability.

Skype: Skype service subject to third-party service subscription terms and conditions.
