Out-of-Warranty Battery Replacement Service(BRS) for Sealed Batteries

Introduction

Dell is pleased to provide Battery Replacement Service for Sealed Batteries (the "**Service(s)**") in accordance with this Service Description ("**Service Description**"). Your quote, order form or other mutually-agreed upon form of invoice or order acknowledgment (as applicable, the "**Order Form**") will include the name of the service(s) and available service options that you purchased. For additional assistance or to request a copy of your service contract(s), contact Dell Technical Support or your sales representative.

Service Overview

The Service provides for a battery replacement for certain battery performance issues if the battery's warranty has expired or if the battery's performance issue is beyond the scope of the warranty. This Service applies ONLY to Dell products that contain primary batteries that are not designed to be replaced or serviced by the Customer. The Service is only available when Dell determines that your product is not eligible for service under your warranty or service contract, and Service may not be available in all instances, on all products, or in all locations.

Dell telephone technical support will validate that the battery needs replacement and provide the Customer with an estimated service fee. Dell will provide an In-Home/On-site labor or Rapid Return for Repair as part of this service. Payment must be made to Dell prior to service and must be processed over the telephone or by direct deposit. Our service center partners are not authorized to accept payment.

Scope of Service

Upon Customer's payment of the service fee to Dell ("**Battery Replacement Fee**"), Dell or our service center partners will replace the primary battery in a Supported Product, provided that you adhere to the terms and conditions specified in this Agreement.

The Service only applies to batteries in Supported Products containing a non-customer accessible battery.

Service coverage limitations:

The Service limitations include but are not limited to the following:

- damage resulting from accident, misuse, neglect, failure to follow instructions for proper use, care or cleaning of the product, or abuse of the product or component (such as, but not limited to, use of incorrect line voltages, use of incorrect fuses, use of incompatible devices or accessories, improper or insufficient ventilation, failure to follow operating instructions, or use of out of specification supplies) by anyone other than Dell (or its representatives),
- damage resulting from an act of God such as, but not limited to, lightning, flooding, tornado, earthquakes, and hurricanes,
- failure due to an external factor (fire, flood, failures or fluctuations of electrical power or air conditioning),
- the loading of software, software configurations or any data files, or
- any related network problems or any service that would be unique to the product's operation on a network

Customers should follow these steps upon experiencing a battery failure:

- **Contact Dell Technical Support:** In order to determine whether the Service applies to your incident, to initiate a service request you must contact Dell tech support. Calls to Dell’s technical telephone support line may not be charged at local rates. For further details on pricing, please refer to your country’s local dell.com website.
 - Contact information for Dell tech support is located at dell.com/technical support. From that page, select your country from the appropriate drop-down menu at top left of the page, then choose the Dell sales segment from which you purchased the Service (either Small & Medium Business or Large Business & Public Sector).
- **Troubleshooting:** Dell tech support, as applicable in your jurisdiction, will diagnose the problem you describe. If Dell determines that the battery is eligible for Service, then Dell tech support, will ask you if you would like to purchase the Service.
- **Payment, Fees, and Additional Charges:** If you agree to purchase the Service, you must pay Dell by credit card or bank payment authorization prior to service. In addition to the Battery Replacement Fee, additional charges may apply if upon inspection of your product, Dell determines that non-battery related components are damaged and require repair in order to replace the battery or to make the product operational, Dell may notify you and provide additional detail of the required repairs. If the damage is repairable, Dell may offer you the option to make a payment for the additional repairs and have them performed. Should you choose not to have Dell perform the additional repairs; Dell will return your product and not perform any repair. If the damage is not repairable or if you choose not to undertake the recommended repairs, Dell will return your product and charge you only for the shipping and handling costs to and from Dell’s repair facilities.

Nothing set out in this Service Description affects or reduces the statutory rights and remedies that the Customer has under applicable laws. General Customer Responsibilities

Authority to Grant Access. Customer represents and warrants that it has obtained permission for both Customer and Dell to access and use the Supported Products, the data located thereon and all hardware and software components included therein, for the purpose of providing these Services. If Customer does not already have that permission, it is Customer's responsibility to obtain it, at Customer's expense, before Customer asks Dell to perform these Services.

Cooperate with Phone Analyst and On-site Technician. Customer will cooperate with and follow the instructions given by any Dell phone analyst or on-site technicians. Experience shows that most system problems and errors can be corrected over the phone as a result of close cooperation between the user and the analyst or technician.

On-site Obligations. Where Services require on-site performance, Customer will provide (at no cost to Dell) free, safe and sufficient access to Customer's facilities and the Supported Products, including ample working space, electricity, and a local telephone line. A monitor or display, a mouse (or pointing device), and a keyboard must also be provided (at no cost to Dell), if the system does not already include these items.

Maintain Software and Serviced Releases. Customer will maintain software and Supported Products at Dell-specified minimum release levels or configurations as specified on PowerLink for Dell | EMC Storage or EqualLogic™, or as specified on www.support.dell.com for additional Supported Products. Customer must also ensure installation of remedial replacement parts, patches, software updates or subsequent releases as directed by Dell in order to keep the Supported Products eligible for this Service.

Data Backup; Removing Confidential Data. Customer will complete a backup of all existing data, software and programs on all affected systems prior to and during the delivery of this Service. Customer should make regular backup copies of the data stored on all affected systems as a precaution against possible failures, alterations, or loss of data. In addition, Customer is responsible for removing any confidential, proprietary, or personal information and any removable media such as SIM cards, CDs, or PC Cards regardless of whether an on-site technician is also providing assistance. **DELL WILL HAVE NO LIABILITY FOR:**

- ANY OF YOUR CONFIDENTIAL, PROPRIETARY OR PERSONAL INFORMATION;
- LOST OR CORRUPTED DATA, PROGRAMS OR SOFTWARE;
- DAMAGED OR LOST REMOVABLE MEDIA;
- DATA OR VOICE CHARGES INCURRED AS A RESULT OF FAILING TO REMOVE ALL SIM CARDS OR OTHER REMOVABLE MEDIA INSIDE SUPPORTED PRODUCTS THAT ARE RETURNED TO DELL;

- AND/OR FOR ANY ACTS OR OMISSIONS, INCLUDING NEGLIGENCE, BY DELL OR A THIRD-PARTY SERVICE PROVIDER.

Dell will not be responsible for the restoration or reinstallation of any programs or data. When returning a Supported Product or part thereof, Customer will only include the Supported Product or part which has been requested by the phone technician.

Third Party Warranties. These Services may require Dell to access hardware or software that is not manufactured by Dell. Some manufacturers' warranties may become void if Dell or anyone else other than the manufacturer works on the hardware or software. Customer will ensure that Dell's performance of Services will not affect such warranties or, if it does, that the effect will be acceptable to Customer.
