Catching the perfect design

"There's a ton of data behind the complex surface of a surfboard. Any computer I use needs to be powerful enough to power through complex 3D modeling quickly and reliably."

Tyler Hanel, Lead Surfboard Engineer, KKL Machine

Whether your business is creating surfboards, designing products or constructing buildings, you need power to handle the most demanding applications. Create your best designs, efficiently and accurately, on a workstation with professional-grade graphics and ISV-certified applications like AutoCAD®. Dell Precision workstations bring speed and reliability to the most demanding engineering projects.
