Catching the perfect design

"There's a ton of data behind the complex surface of a surfboard. Any computer I use needs to be powerful enough to power through complex 3D modeling quickly and reliably."

Tyler Hanel, Lead Surfboard Engineer, KKL Machine

Whether your business is creating surfboards, designing products or constructing buildings, you need power to handle the most demanding applications. Create your best designs, efficiently and accurately, on a workstation with professional-grade graphics and ISV-certified applications like AutoCAD®. Dell Precision workstations bring speed and reliability to the most demanding engineering projects.

Services

Configuration services

From the factory to the desk, ready for work.
We image PC's, apply asset tags, add software and more prior to shipping the systems.

All these services are available Catalogue configurations:
- Support made easy and efficient with single source
- Reduce deployment time, risk and costs
- Ensure consistency of IT environment
- Maximise IT and end-user productivity by leveraging Dell's scale and skills

Dell ProSupport

Minimise your IT burden by using Dell's highly trained experts instead of your in-house staff:
- 24x7x365 direct access to in-region ProSupport experts
- Convenient Next Business Day onsite service after Remote Diagnosis
- Single resource for software, hardware, operating system expertise.
