The N1100 switch series offers a power-efficient Gigabit Ethernet (GbE) network-access switching solution with integrated 1GbE and 10GbE uplinks. With high-performance capabilities and wire-speed performance, utilizing a non-blocking architecture to easily handle unexpected traffic loads, the switches offer simple management and scalability via a 1Gbps (full-duplex) high availability stacking architecture that allows management of up to four switches from a single IP address. Fanless operation on select models, and features such as Energy-Efficient Ethernet and short cable detection provide energy efficiency to help decrease power and cooling costs.

Modernize campus network architectures

Modernize campus network architectures with a power-efficient and resilient 1/10GbE switching solution with up to 24 PoE/PoE+ ports. PoE power budgets up to 375W deliver clean power to network devices such as wireless access points (APs), Voiceover-IP (VoIP) handsets, video conferencing systems and security cameras.

Leverage familiar tools and practices

All N-Series switches include Dell EMC Networking OS 6, designed for easier deployment, greater interoperability and a lower learning curve for network administrators. One common command line interface (CLI) and graphic user interface (GUI) using a well-known command language gets skilled network administrators productive quickly. The N1100 switch series also supports the Open Network Install Environment (ONIE), enabling installation of alternate network operating systems.

Deploy with confidence at any scale

N1100 series switches help create performance assurance with a data rate up to 176Gbps (full duplex) and a forwarding rate up to 164Mpps. Scale easily by stacking with 10GbE ports. Switch stacks of up to 192 1GbE ports can be managed from a single screen using the highly available stacking architecture for high-density aggregation with seamless redundant availability. N-Series switches help provide certainty with a lifetime warranty that covers software upgrades, hardware repair or replacement, and optics and cables purchased with the switch. Details at Dell.com/LifetimeWarranty.*

Hardware, performance and efficiency

- Up to 48 line-rate GbE RJ45 ports and four integrated 10GbE SFP+ ports.
- Up to 12 PoE/PoE+ ports without an optional external power supply.
- Up to 192 1GbE ports in a 4-unit stack for high-density, high-availability in IDFs, MDFs and wiring closets.
- Non-stop forwarding and fast failover in stack configurations (24- and 48-port models only).
- Energy-Efficient Ethernet and lower power PHYs reduce power to inactive ports and idle links, providing energy savings from the power cord to the port.
- Fresh Air compliance for operation in environments up to 113°F (45°C) helps reduce cooling costs in temperature-constrained deployments.

Deploying, configuring and managing

- USB auto-configuration rapidly deploys the switch without setting up complex TFTP configurations or sending technical staff to remote offices.
- Management via an intuitive and familiar CLI, embedded web server (GUI), SNMP-based management console application (including Dell OpenManage Network Manager), Telnet or serial connection.

*Select Networking products carry a Lifetime Limited Warranty with Basic Hardware Service (repair or replacement) for life. Repair or replacement does not include troubleshooting, configuration, or other advanced service provided by Dell EMC ProSupport.
- Deploy, monitor and troubleshoot via integration with HiveManager cloud or on-premise management
- Private VLAN extensions and Private VLAN Edge support.
- AAA authorization, TACACS+ accounting and RADIUS support for comprehensive secure access support.
- Authentication tiering allows network administrators to tier port authentication methods such as 802.1x, MAC Authentication
- Bypass and Captive Portal in priority order so that a single port can provide flexible access and security.
- Remote Switch Port Analyzer (RSPAN) monitors ports across a Layer 2 domain without costly dedicated network taps.

### Technical specifications

**Physical**
- 4x integrated front 10GbE SFP+ dedicated ports, 2x 1G SFP links (24x and 48-port models), 2x 1GbE SFP links (8-port models)
- USB (Type A) port for configuration via USB flash drive
- Auto-negotiation for speed and flow control
- Auto MDI/MDIX, port mirroring
- Flow-based port mirroring
- Broadcast storm control
- Energy-Efficient Ethernet per port settings
- Redundant variable speed fans
- Air flow: I/O to power supply; Pass through POE (N1108EP-ON)
- External power adapter: 137W of POE power (N1108EP-ON)
- Integrated power supply: 24W AC N1108T-ON, 102W AC (N1124T-ON); 250W AC (N1124P-ON), 60W AC (N1148T-ON), 500W AC (N1148P-ON)
- Micro USB Console port (Micro USB to USB cable included)
- Dual firmware images on-board
- Switching engine model: Store and forward;

**Chassis**
- Size (H x W x D) in inches: N1108T-ON, N1108EP-ON: 1.62 x 8.23 x 8.86  
N1124T-ON, N1124P-ON, N1148T-ON, N1148P-ON: 1.75 x 17 x 10  
N1108EP-ON 280W PS 1.69 x 3.94 x 7.87
- Approximate weight: N1108EP-ON 4lbs, 1.81kg  
N1108EP-ON 3.54lbs, 1.61kg  
N1124T-ON 6.72lbs, 3.05kg N1124P-ON 8.33lbs, 3.78kg  
N1148T-ON 9.19lbs, 4.17kg  
N1148P-ON 280W PowerSupply 2.0lbs, 0.91kg
- Rack mounting kit with 2 mounting brackets, bolts and cage nuts
- 1RU tray to accommodate two half rack width switches (kit includes L-brackets for 800mm deep rack/ cabinet)

**Environmental**
- Power supply efficiency: 80% or better in all operating modes
- Max. thermal output (BTU/hr): 66.53 (N1108EP-ON), 35.72 (N1108T-ON), 65.85 (N1124T-ON), 851.66 (N1124P-ON), 102.98 (N1148T-ON), 1566.15 (N1148P-ON)
- Power consumption max (watts): 19.51 (N1108EP-ON), 10.47 (N1108T-ON), 19.3 (N1124T-ON), 249.6 (N1124P-ON), 30.18 (N1148T-ON), 459 (N1148P-ON)
- Operating temperature: 32° to 113°F (0° to 45°C) (N1108EP-ON, N1108T-ON, N1124T-ON, N1124P-ON, N1148T-ON, N1148P-ON)
- Operating humidity: 95%
- Storage temperature: –40° to 149°F (~40° to 65°C)
- Storage relative humidity: 85%

**Performance**
- MAC addresses: 16K
- Switch fabric capacity: 24Gbps (N1108T-ON and N1108EP-ON), 128Gbps (N1124T-ON and N1124P-ON), 176Gbps (N1148T-ON and N1148P-ON)
- Forwarding rate: 18MppsN1108T-ON andN1108EP-ON, 96Mpps (N1124T-ON and N1124P-ON), 132Mpps (N1148T-ON and N1148P-ON)
- Link aggregation: 64 LAG groups, 144 dynamic ports per stack, 8 member ports per LAG
- Queues per port: 8
- Line-rate Layer 2 switching: All (non-blocking)
- Flash memory: 1GB

Technical specifications

Packet buffer memory: 1.5MB (N1108T-ON and N1108EP-ON), 2MB (N1124T-ON and N1124P-ON), 4MB (N1148T-ON and N1148P-ON)
CPU memory: 1GB
VLANs supported: 512
Protocol-based VLANs: Supported
ARP entries: 2,048 (IPv4)/512 (IPv6)
NDP entries: 400
Access control lists (ACL): Supported
MAC and IP-based ACLs: Supported
Time-controlled ACLs: Supported
Max ACL rules (system-wide): 4K
Max configurable rules per list: 1023
Max ACL rules per interface and direction (IPv4/L2): 1023
Max ACL rules per interface and direction (IPv6): 1021 ing/253 egr
Max ACL logging rules (system-wide): 128
Max number of ACLs: 100
Max VLAN interfaces with ACLs applied: 24

IT Lifecycle Services for Networking

Experts, insights and ease
Our highly trained experts, with innovative tools and proven processes, help you transform your IT investments into strategic advantages.

Plan & Design
Let us analyze your multivendor environment and deliver a comprehensive report and action plan to build upon the existing network and improve performance.

Deploy & Integrate
Get new wired or wireless network technology installed and configured with ProDeploy. Reduce costs, save time, and get up and running fast.

Educate
Ensure your staff builds the right skills for long-term success. Get certified on Dell EMC Networking technology and learn how to increase performance and optimize infrastructure.

Manage & Support
Gain access to technical experts and quickly resolve multivendor networking challenges with ProSupport. Spend less time resolving network issues and more time innovating.

Optimize
Maximize performance for dynamic IT environments with Dell EMC Optimize. Benefit from in-depth predictive analysis, remote monitoring and a dedicated systems analyst for your network.

Retire
We can help you resell or retire excess hardware while meeting local regulatory guidelines and acting in an environmentally responsible way.
